Make sure your shredding company is
AAA Certified by The National Association
of Information Destruction

It's Simple!

We come to you to perform all shredding services.

We provide the necessary security containers for you to put your documents in.

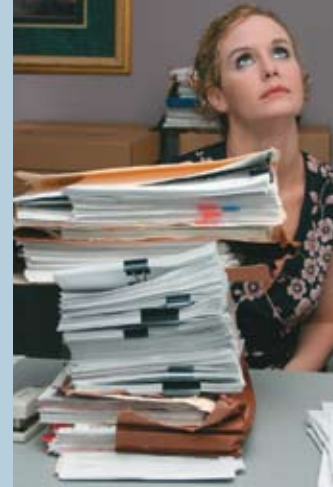

- We bring our security containers to our Mobile Shredding Truck and they are picked up, dumped and shredded by our automated system right outside your office.
- We never touch or see your documents.
- We provide certificates of destruction for all shredded documents.

It's Cost Effective

- We will develop a shredding program that best suits your company's needs.
- We charge a fixed rate per container so it's easy for you to control.

Who needs Shredding Services? EVERYONE

- MOVING? Before your move, it's a good time to purge your files. But you should not discard just any old or unwanted files. They need to be shredded.
- IT'S THE LAW — Many companies, healthcare providers and other professionals are required by law to shred certain information before it is discarded.
- SECURITY — To protect your company, clients, patients and employees, all documents should be shredded before they are discarded.

How do you choose a shredding company?

- Make sure they are a member of "NAID," The National Association of Information Destruction, which is the only national organization dedicated to the Information Destruction Industry that requires its members to adhere to a strict code of ethics.
- Make sure they are AAA Certified by NAID, which shows that they have met and exceed the highest standards in the industry.
